

Number 107

April 23, 1982

Octagon Heaven

THE BULK HEAD AND ACCELERATOR LINKAGE (DRIVER'S SIDE)

The drawing below gives the dimensions for holes and slots for the linkage.

The lower slot is cut by drilling two holes $1\frac{1}{2}$ " apart per center line dimensions, and sawing the slot. The upper slot is two holes $3/8$ " apart on centerline and sawed in similar maner.
