## EDITORIAL

**A** HAPPY NEW YEAR." This age-old wish is much abused nowadays, for it is common for us to interpret it as a wish that our New Year shall be of that variety known as Happy.

Actually, we do not believe this to be the origin of the phrase.

"A New Year" sounds an empty form of greeting, yet to the self-reliant and the opportunist it should suffice.

It should be up to each one of us, individually, to make the New Year a Happy one.

With every New Year comes Opportunity. Opportunity is the plaything of the enterprising and the quick-thinking.

Seize Opportunity, like Time, by the forelock. Make him your slave—or you will quickly become his.

In your motoring, be an Opportunist; but temper your opportunism not only with quick thinking but also with Courtesy.

What is it that we most delight to meet with in our fellow-motorists?

Is it mechanical knowledge, quickness of perception, driving prowess or—courtesy?

We believe we know your answer.

If he makes it a Courteous New Year, you will have a Happy New Year—and the same applies to you. . . .

WE WISH ALL READERS OF "THE  
M.G. MAGAZINE"

A HAPPY NEW YEAR
