

MMM & T Type Electrical & Ignition

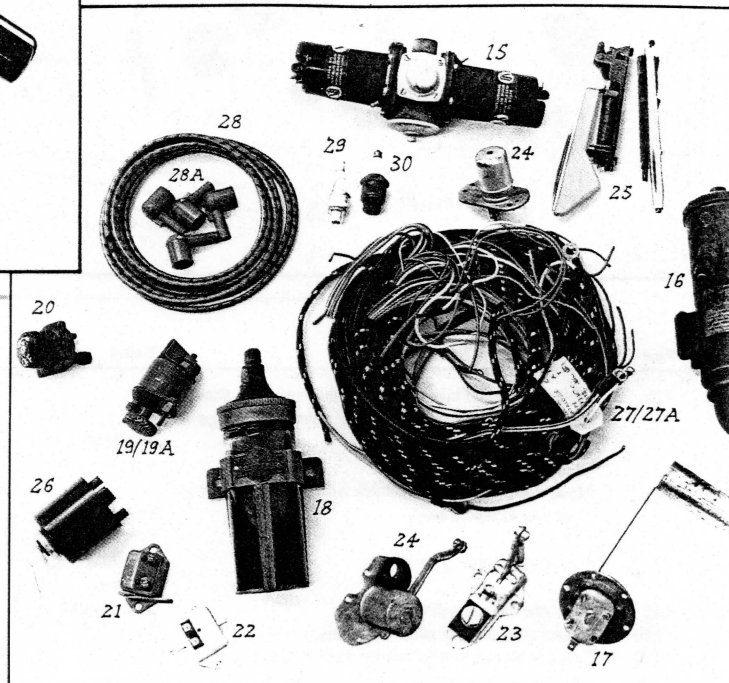

Pic.	Part	Description and Remarks	Model	Qty.
1	1046*	Distributor, complete, 4 cylinder type DJ/4A. All pre T type distributors are anti-clock from drive end — clockwise if viewed from top. (Manual advance/retard.)	M/D/early J	1
2	1047*	Distributor, complete, 6 cylinder type DJ/6A. All pre T type distributors are anti-clock from drive end — clockwise if viewed from top. (Manual advance/retard.)	F1/F2	1
3	1048*	Distributor, complete, 4 cylinder type DK4A. All pre T type distributors are anti-clock from drive end — clockwise if viewed from top. (Auto advance/retard.)	Late J/PA/PB	1
4	1049*	Distributor, complete, 6 cylinder type DQH/6A. All pre T type distributors are anti-clock from drive end — clockwise if viewed from top. (Auto advance/retard.)	L/K/N	1
5	T1050*	Distributor, complete, 4 cylinder type DKY4A. Anti-clock at top. (TA models used type DK4A.)	TA/B/C/D	1

Any distributor (supplied by the customer or ourselves) can be fully restored throughout (21-28 days.)

	1046A*	Distributor holding clamp (with ball joint). (Not illustrated).	M/D/F/early J	1
	1048A*	Distributor holding clamp. (Not illustrated).	Late J/L/K/P/N/TA	1
	1050A*	Distributor holding clamp with micro adjuster. (Not illustrated).	TC/B	1
6	1051	Distributor base plate. (State model.)	MMM Models	1
6A	T1052	Distributor base plate. (State model.)	TA,B,C,D	1
7	1053	Distributor points. (Early 1 piece type (very rare).) (Beware of cheap Taiwan Sets).	M/D/F/early J	Set
7	1054	Distributor points.	Late J/P/L	Set
7	1055	Distributor points.	K/N/(late Ls)	Set
7	1056	Distributor points.	TA	Set
7	T1057	Distributor points.	TB/C/D	Set
8	1058	Condensers. (State model.)	All models	1
9	1059	Rotor Arms. (We regret N types not available yet.)	All models	1
10	1060	Distributor cap (4 cylinder).	M type	1
10	1061	Distributor cap (4 cylinder).	J/P/TA	1
10	1062	Distributor cap (6 cylinder).	F/L	1
10	1063	Distributor cap (6 cylinder).	K/N/(late Ls)	1
10	T1064	Distributor cap (4 cylinder).	TB/C/D/F	1
	1065	Distributor cap nuts and brass washers. (Not illustrated).	All 4 cylinder models	Set
	1066	Distributor cap nuts and brass washers. (Not illustrated).	All 6 cylinder models	Set
	1067	Distributor drive dog. (Not illustrated).	M/D/F/J/L/K/N	1
11	T1068*	Distributor drive gear.	TA/B/C/D	1
12	1069	Brushes — starter motor. (State model.) (Not illustrated)	All models	Set
12	1070	Brushes — generator. (State model.)	All models	Set
13	1071	Petrol pump 6V type AUA25 or 66*. (Brass base pumps available at extra cost.)	M type only	1
13A	1072	Petrol pump 12V type AUA25 or 66*. (Brass base pumps available at extra cost.)	All except M	1
14	1073	Petrol pump right angle elbow.	All models	1

* Where the more readily obtainable AUA66 pump is fitted, the delivery pipe connection needs replacing with one that has a screw fitting — to replace 'push-on' type supplied as standard. We hold the required connection in stock.

Pic.	Part	Description and Remarks	Model	Qty.
15	1074	Double petrol pump. (Difficult supply.)	Racing models	1
16	1075*	Petrolift — 12v. (Unreliable — best mounted for show purposes, fuel being pumped in by hidden electric pump.)	D.F. early L & J	1
17	1076	Fuel tank sender unit.	NA/B.	1
18	1077*	Oil cooled 6v or 12v coil by Runbaken Co. (Rare period option.)	TC/D/F	1
19	1078*	Firewall mounted foot starter switch. (See page 34.)	D/F/J/L/K	1
19A	1079	Foot starter switch, button only (criss-cross pattern).	D/F/J/L/K/N	1
20	1080	Battery Master Switch.	Every model	1
21	1081*	Brake light switch — original pattern (lever action.)	Every model	1
22	1082	Brake light switch — current 'Lucas' unit (push-pull.)	Every model	1
23	T929	Starter motor switch — cable operated.	TA models	1
24	T931	Starter motor switch — cable operated.	TB/TC/TD	1
	1083*	Trafficators (directional signal arms). (Not illustrated). (Ultra thin arms. To order only.)	PA/PB/NA/NB	1 pair
25	1083A	Trafficators (as above) but 'Morris 1000' type. Best value type for Ps & Ns.	Tickford models	1 pair
26	T1084	Directional indicator turn switch. (Suitable for all models fitted with turn signals.)	TF models	1
27	1085	Wiring looms. PVC wires with correct cloth covering. (State when turn signals required.)	All models	1
27	1086	Wiring looms. Cloth wires with correct cloth covering. (Superb new cloth wire option.)	All models	1
28	1087	High tension lead set — correct braided cloth type.	All models	Set
28A	1088	Spark plug lead caps. Vintage pattern. (All originals now exhausted.)	All models	4 6
29	1089	Sparkling plug — Champion 7. 18mm.	M/D/F	4 6
30	1090	Sparkling plug — Champion L10. 14mm.	J/L/K/P/N/TA/B/C	4 6

* Available in secondhand condition only.

Lucas SF24/SF28 Ultra thin trafficators with bulb protrusion are the single most rare item for early MG motor cars.
