

## MMM & T Type Lamps & Horns

Please remember: We can undertake the full restoration of any lamps (head, tail, side or auxillary) and/or horns; OR we can part exchange immediately your old units (or part units) for 'off-the-shelf' fully restored units.

Pic.	Part	Description and Remarks	Model	Qty.
	1300	Headlamp — type Rotax K701 (7"). (Not illustrated). (Lucas type R47B also fitted.).	M	Pair
1	1301	Headlamp — type Rotax K624 or K624/2 (8") (Now available new to very high standard).	D/F/J/early L	Pair

N. B. As it is not possible to illustrate every variant of all items please refer to general description and STATE MODEL TYPE REQUIRED.

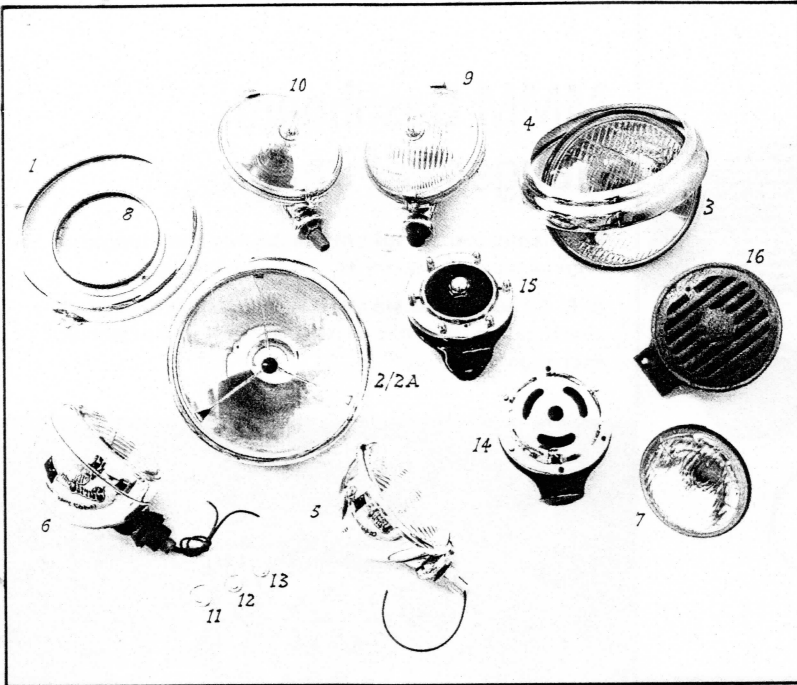

\* Available in secondhand condition only.

We offer considerable expertise in the area of lamps and associated parts and unlike many non-recognised suppliers who can offer a 'pair of lamps' — we guarantee to supply in almost every case, exact specification material for the model in question and unless specifically advised otherwise all supplies will be ORIGINAL UNITS, either restored or unrestored according to customers' instructions.

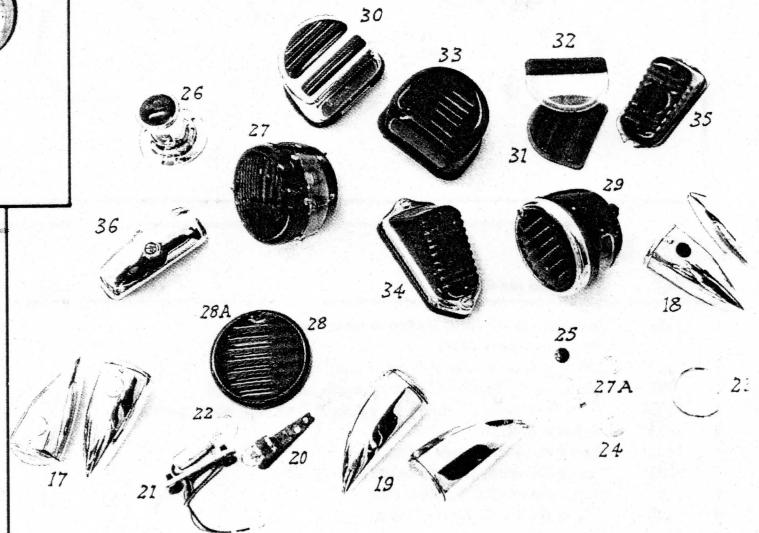

9 out of 10 'concoers' cars have their headlamp medallions fitted the wrong way round. You must be able to read the words 'King-of-the-Road' standing IN FRONT of the car.

# MMM & T Type Lamps & Horns
