Dear Customer,

I hope that you are pleasantly surprised at the large range of new spares that we can now offer for the Overhead Camshaft M.G.'s. Whilst being impossible to manufacture every item that may be required during rebuilds, etc., it is our intention to produce any new part for which there is reasonable demand, so please write in as there may be others in need of the same part and a batch may be worthwhile. Our workshops are equipped to deal with a limited number of partial or total rebuilds, also engine work etc. Your enquiries are invited.

In response to many requests for certain parts which cannot be economically produced new, I would like to build up stocks of suitable secondhand spares. I would be happy therefore to purchase outright or accept against new spares suitable items which are surplus to your requirements.

Whilst we are well organised to provide an efficient postal service I am always pleased to meet anyone who wishes to collect spares personally. However, as our Workshops are located some distance from the Stores it is essential to make an appointment if you wish to call. Stores are situated 4 miles north of Shrewsbury on the A49 Trunk Road at the rear of the Weighbridge Office of Messrs John Dowley & Son. MR118/518175

Octagonally Yours,
Mike Dowley
