41	T1797	Pair of TA tool trays displayed with our tools.	TA/VA	Pair

## THE ULTIMATE 'CONCOURS' WINNER

All the tools offered (with the exception of the wheel nut hammer) are RESTORED ORIGINALS. In the future it may become necessary to remake some of the most scarce items, but if and when this happens you will be advised prior to purchase. Tool sets may be purchased as complete sets or as individual items. The make-up of individual model tool sets can be seen in the factory parts list relating to that model, or a photocopy depicting individual full displays may be had F.O.C. by stating the model type required.

As with most rare, original items that have also been restored, they are not inexpensive, but where a full set (often 25-30 pieces) cannot be afforded as a unit, this can be built up over a period of time, and we try to help by reserving individual items to avoid disappointment.

All tools are listed separately

BEING ORIGINAL, ALL ARE OFFERED SUBJECT TO AVAILABILITY

The inclusion of an original tool set represents the real completion of a concours winning rebuild (or simply the sensible drivers' way of 'getting home on time!').
