

## Virtual Evesham Naviscat - 5 July 2020 – Regulations

The event is being hosted by Cheltenham Motor Club but open to any enthusiast, and in particular Members of the Inter Register Club and the MG Car Club. There is no entry fee but please follow the links through the Cheltenham Club website [www.cheltmc.com](http://www.cheltmc.com) and make a donation on the Virgin Money Giving page for NHS charities.

**The event will be held in real time on Sunday 5 July 2020.**

You must sign on by sending an e-mail to [blackstocks2000@aol.com](mailto:blackstocks2000@aol.com) before 12.00 noon on Saturday 4 July 2020. Please state your motor club and the class that you are entering from below. **No minimum but maximum entry will be 60.**

**Class A – Expert** Competitors who have finished in the top three of any navigation scatter event or 12-car rally, or the top ten of a National B Rally, in the last 5 years.

**Class B – Novice** Competitors with more limited navigation experience.

Route cards will be sent to entrants by e-mail between 11.00am and 11.50am and you will have 2 hours (Experts) and 2½ hours (Novices) to complete the event by submitting your answers to 15 clues within your time from receipt of your Routecard.

Straightforward navigation techniques will be used and Novice routecards will include more six figure grid references (so a Romer is desirable) with some easy variations for the bigger scoring Cluepoints.

To plot the Clue points you need a recent edition of **OS Landranger 1:50,000 Map150** (e.g. from [www.dash4it.co.uk](http://www.dash4it.co.uk)) or use [www.bing.com/maps](http://www.bing.com/maps) and search Evesham in the Ordnance Survey layer.

There will be 20 Clue points with varying scores depending on complexity of plotting or answers.

You must submit a maximum of 15 answers as per usual live naviscat regulations.

Roads and junctions may be used once only in any navigation section to plot each Clue point, but the same road may be used again for different navigation sections to reach other Clue points.

You will find the answers using Google Earth – Street View and, just as in the real thing, you will have to get out of the car and have a good look around. All answers should be found within 50 metres of the point plotted so you may have to move the little man around to find them or seek a different view.

Maybe have another member of your household sitting beside you and don't forget to take a packed lunch to the computer.

Results will be distributed by e-mail as soon as possible after 9.00pm on 5 July.

The organiser's decision is final and cannot be disputed.

**Final Instructions will be e-mailed to entrants on 01 July 2020**
